

allnex to Exhibit at Asia Pacific Coatings Show Bangkok, Thailand 2023

allnex, the leading global producer of industrial coating resins and additives, offering household, industrial, automotive and consumer goods coatings and inks, will be participating in Asia Pacific Coatings Show 2023 which will take place at the Bangkok International Trade & Exhibition Centre, Thailand on September 6-8, 2023.

At the booth, allnex will be introducing portfolios of eco-friendly products, including waterborne resins, high solid resins, powder coatings, energy curable resins, WB UV coating resins, additives, phenolic crosslinkers, amino crosslinkers, catalysts and so on. End use samples of allnex innovative developments will be available at the booth for our customers, and allnex chemists will be available for any discussions or questions about the allnex product line.

Sustainability is a commitment to our stakeholders. We embrace this responsibility and stay focused and dedicated to pursuing a greener and more sustainable future together with our customers.

Come to meet allnex at Booth B11! Look forward to seeing you there!
